Loose Shoes.

Quite as bad as too tight shoes, against which we are always warned, are too loose ones; they cause corns and bunions and often produce flattening of the arches.

RAISING ASSESSMENT.

Only Means by Which Millersburg Can Obtain Improvements Urged by Hurst.

CITY COUNCIL IN SESSION.

Railroad Granted Permit to Erect New Depot Opposite Old Site—Millersburg News.

Declaring that the city of Millersburg could not hope from the present assessment of the town property to reap any benefits in the form of public improvements, Mr. F. F. Hurst, Chairman of the City Board of Supervisors, addressed the Board at the regular meeting of the City Council Wednesday evening, when the report of the Board was submitted to that body, and urged an increase in the assessment of the taxable property in the years to come to meet the public requirements.

In the course of his address before the Board Mr. Hurst discussed the assessment of the city, stating that at the present time it was entirely too low, and if the people of the town expected to be able to come into possession of the improvements that mean so much to a town the assessment should be increased.

He showed that a greater part of the taxable property in Millersburg was assessed at one-third of its value and some even less, while there was very little which was assessed as much as fifty per cent of its value. He said if the town property was put upon the proper basis the rate of taxation would not have to be increased to install such improvements as a water works plant, but to require an assessment of the property at two-thirds of its reasonable value, would according to his estimate, put a sum in excess of \$2,500 extra in the city treasury annually, most all of which could be set aside as a fund with which to install a water system.

As it is beyond the power of the town council to make a bonded indebtedness of more than \$6,000, Mr. Hurst is of the opinion that in connection with this and the funds realized from a proper assessment, a sufficient amount could, within a few years, be accumulated with which to install a perfect system of water-works. Mr. Hurst's address was well received and much

enthusiasm was evidenced as a result of his remarks. While no action is expected to be taken along this line at the present time the matter will be again taken up before another year has elapsed.

The books of the Board of Supervisors were turned over to the Council. The report of the Board shows the total amount of the assessment of the year of 1910 to be \$324,347 an increase of \$33,917 over the report of the Board of Supervisors of the year previous. The present Board raised the assessment \$19,375, a net increase of \$14,542. The assessment for the year of 1911 amounts in the aggregate to the sum of \$343,722, \$31,452 of which is levied upon the property owned by white residents and \$28,300 upon colored residents.

Considerable routine business was transacted and a permit was granted the Louisville & Nashville Railroad Company to construct a depot on the East side of the railroad track from the old site. The building will cost about \$3,500 and will be a frame structure covered with slate. Mr. A. S. Best was granted a permit to build an ice house on Railroad street. After allowing the usual number of claims, the Council adjourned.

Germ of Happiness.
"He was happy on a pint measure," says a Billville philosopher, "but never objected to a gallon jug. If he had to dwell in the valley he contented himself with the thought that there was nothing but storm and thunder on the hilltop, anyway, and that all have to get back to the simple life in the end. Thus, on the rugged pathway of life he preserved an even soul."—Atlanta Constitution.

No Man's Life His Own.
Never say: "It is nobody's business but my own what I do with my life." It is not true. Your life is put in your hands as a trust, for many others beside yourself. If you use it well, it will make many others happy; if you abuse it, it will harm many others beside yourself.—James M. Pullman.

To Polish Furniture.
For furniture there is nothing to equal olive oil or raw linseed oil, rubbed into the wood, according to the grain. The woodwork may require retainting as well. Ordinary old oak is always improved by rubbing it with warm beer. It should be remembered that linseed oil has the effect of darkening mahogany.

ONE WEAK SPOT

Most Paris People Have a Weak Part and Too Often It's the Back.

Everyone has a weak spot. To often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Tells you the kidneys need help. For backache is really kidneyache. A kidney cure is what you need. Doan's Kidney Pills are for sick kidneys.

For backache and urinary ills. Good roof of their merit in the following statement:

C. M. Hamilton, farmer, W. Main street, Carlisle, Ky., says: "About eight years ago I was afflicted with typhoid fever which left my kidneys very weak and from that time on I was subject to attacks of kidney complaint. My back became weak and lame and if I stooped, sharp twinges, like the stab of a knife, darted through my body. The kidney secretions were also out of order, being at times too frequent in passage, then again just the reverse. I recently got a box of Doan's Kidney Pills and they lived up to all the claims made for them, entirely relieving me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
